Report of The Forest Fire Warden

FIRE RECORD

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.

2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.

3. Don't leave a live camp or cooking fire.

4. Most important - instruct your children that matches are not play things.

TRULY - ONLY YOU CAN PREVENT FOREST FIRES

Annual Report of the Superintendent of Schools

To the Board of Education and Citizens of the Hill School District.

I herewith submit my annual report as your Superintendent of Schools.

In the fall of 1966 we had our first staff changes in four years. Mr. Kenneth Hazen left the Jennie Blake School at the end of the 1965-66 school year to accept a position in another New Hampshire town and Miss Patricia LaPlante left at the same time for advanced study in the State of California.

Mr. Richard Phelps, a graduate of the University of New Hampshire with extra work at Plymouth State College, has replaced Mr. Hazen as Principal and teacher in grades five and six while Miss Patricia Landry, a graduate of Plymouth State College, has replaced Miss LaPlante as teacher in grades one and two. Miss Landry is also carrying on our Conversational French Program now in its second year.

Mrs. Colby continues as our grade three and four teacher, Mrs. Martha Gilchrist as school nurse and Mr. Vincent Kondrotas in music.

In spite of a two-thirds change in our faculty, I feel that following a few weeks of getting acquainted the education is progressing very well at Jennie Blake School.

Our educational program of modern mathematics and conversational French are continuing. This year we are considering a revision in our reading system. We have been using a sight system supplemented with phonics. Under consideration is a complete system which integrates phonics right into the reading text.

The budget for 1967-1968 of \$69,054.72 is up \$8,424.86 over this years budget. The major part of this increase, \$7,283.00 is for increased costs of tuition. The rest of the increase, \$1,141.86 is distributed through all other items of the budget. It is felt the amount requested is needed for the proper operation of our school system.

I would like to express my appreciation to the Board of Education and Citizens of Hill for their support in our educational efforts.
